

PEP

PARENT ENRICHMENT PROGRAM

The Parent Enrichment Program provides comprehensive support for the “whole” parent, through a variety of proven and evidenced-based methodology to help parents reach their goals.

PROGRAM COMPONENTS

Screening and Assessment Needs

The Parent Enrichment Program provides trauma-informed care. Parents' needs will be reviewed at the time of the referral. Our goal is to support the parent and give guidance to desired outcomes.

Orientation Group

Parents will be introduced to our service model, develop a vision for themselves, and complete enrollment paperwork. Orientations are scheduled every two weeks or more if needed.

Goal Setting and Planning

Parents will collaborate with their assigned Family Specialist to create goals and a family plan that closely aligns with their HCJFS case plan, establishing healthy behaviors, building financial literacy, and empowering parental resilience.

Parent Enrichment Series

The Parent Enrichment Series provides an evidence-based curriculum using Natural Strength Parenting™ and Triple P content. Parents will participate in one 3 hour session per week for 8 weeks.

Visitation

We provide hybrid services to meet families where they are. Our family specialist will meet parents virtually, in their home, communities, and designated child visitation centers.

Natural Strength Parenting™

Natural Strength Parenting™ is a unique approach to parenting from Beech Acres Parenting Center. Natural Strength Parenting™ encourages you to be intentional and mindful in your parenting while focusing on your child's innate strengths. Building on their strengths will increase their confidence, self-esteem, and resilience all of which lead to positive well-being. We promise these skills aren't hard, and more of your conversations will be about what's going right vs. what they did wrong!

STRENGTH
PARENTING™

Triple P – Positive Parenting Program®

The Triple P – Positive Parenting Program® is a parenting and family support system designed to prevent – as well as treat – behavioral and emotional problems in children and teenagers. It aims to prevent problems in the family, school and community before they arise and to create family environments that encourage children to realize their potential.

NEW! Family Centered Treatment

Family Centered Treatment is an evidence-based practice focused specifically on creating positive change for families faced with forced removal of their children from the home or dissolution of the family due to internal and external circumstances.

QUICK FACTS

What are the eligibility requirements for parents to participate?

- Parents in need of education and support with parenting.
- Parents with a desire to build their parenting skills.
- Parents with questions about parenting.
- Parents who are currently active with HCDJFS.

FAQS

I may need additional services, can you connect me?

Referrals can be provided to specialized services based on needs such as mental health or chemical dependency services.

TESTIMONIALS

“I am extremely satisfied with the services provided. Great staff and techniques for different learning situations.”

“I felt that it touched on a lot of issues I had and it also answered a lot of my questions about how to better myself as a parent.”
